

# Licensing procedures at AEC

1. Fill and return completed notification form for any intended practice
2. Council receives the notification form and gives the client relevant application forms according to the notified practice.
3. Filled and completed application forms are returned to Council
4. Council within 30 days after receipt of application, verifies, assesses and reviews the application forms and the applicant is contacted in case of any missing or additional information.
5. Quotation (Invoice) is sent to the applicant
6. Upon honoring the invoice Council issues the applicant with the license/permit.

**Note: The licensing/procedure according to the Atomic Energy Act, 2008 35 (3) takes a maximum of 90 days, but for a complete application, the process could take less time depending on the nature of the practice.**
